## A Letter Concerning Toleration

**Type** Book  
**Author** John Locke  
**Publisher** Filiquarian Publishing, LLC.  
**ISBN** 9781599867625  
**Date** 2007-08  
**Library Catalog** Google Books  
**Language** en  
**Abstract** A Letter Concerning Toleration is an important work written by John Locke and originally published in latin in the late 17th century. John Locke argues in this writing for there to be a new understanding between the relationships of religion and government. Providing a contrary view to that of Thomas Hobbes in Leviathan, Locke was a founder of Empiricism and denounced it for its support of toleration of the various Christian denominations. This is a key publication for those studying government or the writings of John Locke and the debates among early political writers, which are still largely relevant today.

## Challenging Code: A Sociological Reading of the KDE Free Software Project

**Type** Journal Article  
**Author** Brian Alleyne  
**URL** <http://soc.sagepub.com/content/45/3/496>  
**Volume** 45  
**Issue** 3  
**Pages** 496-511  
**Publication** Sociology  
**ISSN** 0038-0385, 1469-8684  
**Date** 06/01/2011  
**Journal Abbr** Sociology  
**DOI** 10.1177/0038038511399620  
**Accessed** Fri 22 Feb 2013 10:36:53 GMT  
**Library Catalog** [soc.sagepub.com](http://soc.sagepub.com)  
**Language** en  
**Abstract** Free, Libre and Open Source Software (FLOSS) challenges the norms and relations of the capitalist software industry that is at the core of network society. Many people involved in FLOSS see themselves as activists in a new social movement. The article discusses the KDE (Kool Desktop Environment) project as a FLOSS case study. KDE is one of several projects intended to bring ease of use of a graphical user interface (GUI) to various free operating systems. (The operating system is the underlying software on top of which sit applications we use directly such as web browsers or word processors.) The article considers the KDE project from three broad perspectives — ‘cosmological’, technical, and organizational — in order to examine the expressed world-view and technical organization of the project through an established sociological approach to activism and social movements.

## Ghosts at Cockcrow

**Type** Book  
**Author** Stewart Conn  
**Publisher** Bloodaxe Books  
**ISBN** 9781852246860  
**Date** 2005-08-15  
**Library Catalog** Google Books  
**Language** en  
**Abstract** This collection includes many poems written during Conn's three years as Edinburgh's first Poet Laureate. In the title poem, "Ghosts at Cockcrow," set in Burgundy, he reflects on the transience of beauty and the vulnerability of our lives. But whether revelling in landscape or cities, or marvelling at the durability of love, Stewart Conn's tone is always affirmative. He celebrates the affections, and observes the passage of time, often through works of art. And he conjures up--exhilaratingly and often with wry humour--settings as diverse as museums and stage sets, trout-lochs and mountain slopes, Barcelona's Ramblas and Edinburgh's Royal Mile.

### Image-based Research: A Sourcebook for Qualitative Researchers

**Type** Book  
**Author** Jon Prosser  
**Publisher** Routledge  
**ISBN** 9780750706490  
**Date** 1998-04-01  
**Library Catalog** Google Books  
**Language** en  
**Abstract** Just what is a picture worth? Qualitative research is dominated by language. However, researchers have recently shown a growing interest in adopting an image-based approach. This is the first volume dedicated to exploring this approach and will prove an invaluable sourcebook for researchers in the field. The book covers a broad scope, including theory and the research process; and provides practical examples of how image-based research is applied in the field. The book covers a broad scope, including theory and the research process; and provides practical examples of how image-based research is applied in the field. It discusses use of images: in child abuse investigation; exploring children's drawings in health education; cartoons; the media and teachers.

Imagining Scotland. National self-depiction in Sir Walter Scott's "Waverley", Lewis Grassic Gibbon's "Sunset Song", Irvine Welsh's "Trainspotting" and Alasdair Gray's "Lanark"

**Type** Journal Article  
**Author** Christian Kuczniarz  
**URL** <http://epub.uni-regensburg.de/12281/>  
**Date** 2009-05-18  
**Accessed** Tue 01 Nov 2011 16:40:58 GMT  
**Library Catalog** epub.uni-regensburg.de  
**Abstract** "Imagining Scotland" traces Scottish literary self-depiction in Scottish literature. It claims that Scotland must be seen as an imagined nation. Having lost its independence three hundred years ago when it became part of Great Britain, Scotland nonetheless went on seeing itself as a distinct entity. In the creation of this ♦Scottishness♦, literature has played a vital role. It helped maintain the idea of being different, while at the same time it acknowledged that the Union was an established fact. Analysing four novels from different literary periods ♦ Sir Walter Scott♦s "Waverley" (1814), Lewis Grassic Gibbon♦s "Sunset Song" (1932), Alasdair Gray♦s "Lanark" (1981) and Irvine Welsh♦s "Trainspotting" (1993) ♦ the study shows that all authors created images for their country.

These images take over the function of myth. This myth-making contributed to the perpetuation of an idea of Scotland. Furthermore, the authors relied on the concept of the historical novel in order to incorporate their image, the myth of Scotland, into a narrative, which works as a fictional history for Scotland. In fact, the connection between myth, narrative and history is so close, that in "Waverley" ♦s case, the image of Scotland as developed by Scott still dominates the imagination of Scotland up to the present day. This act of conversion, the study argues, is characteristic for Scottish writing: It is the logical consequence of living and writing in a Scotland-in-limbo, in a nation, which was not realised, yet never stopped imagining itself.

**Abstract** I first met Augustus Welby Northmore Pugin when I was 14. At the time I was mad about English Baroque and medieval parish churches. Pugin seemed plain mad. He ranted and raved at me through the pages of a mouldering Victorian book that cost all of pounds 2. I had never read anything like it. True Principles of Pointed or Christian Architecture had been published in 1841, when the architect was 29.

## John Duns Scotus

**Type** Book Section  
**Author** Thomas Williams  
**Editor** Edward N. Zalta  
**URL** <http://plato.stanford.edu/archives/spr2010/entries/duns-scotus/>  
**Edition** Spring 2010

**Date** 2010  
**Accessed** Sun 17 Feb 2013 13:23:05 GMT  
**Library Catalog** Stanford Encyclopedia of Philosophy  
**Abstract** John Duns Scotus (1265/66-1308) was one of the most important and influential philosopher-theologians of the High Middle Ages. His brilliantly complex and nuanced thought, which earned him the nickname "the Subtle Doctor," left a mark on discussions of such disparate topics as the semantics of religious language, the problem of universals, divine illumination, and the nature of human freedom. This essay first lays out what is known about Scotus's life and the dating of his works. It then offers an overview of some of his key positions in four main areas of philosophy: natural theology, metaphysics, the theory of knowledge, and ethics and moral psychology. , ~or~

## Mental Representation in Medieval Philosophy

**Type** Book Section  
**Author** Henrik Lagerlund  
**Editor** Edward N. Zalta  
**URL** <http://plato.stanford.edu/archives/spr2011/entries/representation-medieval/>  
**Edition** Spring 2011  
**Date** 2011  
**Accessed** Tue 30 Oct 2012 09:35:14 GMT  
**Library Catalog** Stanford Encyclopedia of Philosophy  
**Abstract** The notions of mental representation and intentionality are intrinsically related in contemporary philosophy of mind, since it is usually thought that a mental state has content or is about something other than itself due to its representational nature. These notions have a parallel history in medieval philosophy as well, but

it has been intentionality that has attracted medieval scholars' attention (for example, in Knudsen 1982, Pasnau 1997, Perler 2001 and Perler 2002). There have only been a few studies on mental representation (Tweeddale 1990, Pasnau 1997 and Lagerlund 2007a).

## Modern Scottish Poetry

**Type** Book  
**Author** Christopher Whyte

**Publisher** Edinburgh University Press  
**ISBN** 9780748616008  
**Date** 2004  
**Library Catalog** Google Books  
**Language** en  
**Abstract** Despite the crucial role played by Scottish poetry in the move towards self-definition and autonomy during the latter half of the 20th century, there has been no specific study dedicated to its evaluation. "Modern Scottish Poetry" is a groundbreaking survey of the field, notionally framed by the outbreak of the Second World War and the (re)-opening of the Scottish Parliament in 1999. Careful attention is given to this poetry's roots in the preceding period, as well as to the broader European context and to the influence of English and North American writers. Adopting a decade by decade approach, Christopher Whyte takes a collection by each of 20 significant poets writing in English, Scots and Gaelic as the starting point for an examination of their whole career and of the connections linking them. Poets featured include Sorley MacLean, Edwin Muir, George Campbell Hay, Sydney Goodsir Smith, Edwin Morgan, Tom Leonard, W. S. Graham, Iain Crichton Smith, Liz Lochhead, Kenneth White, Robert Crawford, Carol Ann Duffy and Aonghas MacNeacail. Innovative, challenging and frequently controversial, the readings are underpinned by a consistent theoretical sophistication. Topics covered include language, politics, the nation, gender and sexuality. Highlighting the richness and variety of work produced across six decades, "Modern Scottish Poetry" offers a refreshing and stimulating reassessment of Scottish cultural history at the beginning of the twenty-first century.

**Abstract** Over the next 10 years, Scottish tourism is expected to grow by 50%. One of the keys to that growth is transport which is a sector that is dependent upon oil. This paper considers oil and the global economy and its relationship to Scottish tourism. Consideration is given to the key variables such as oil forecasts, security of supply, cost of production, world demand, alternative forms of energy including renewables and nuclear power. The combination of these facts means that high oil prices are here to stay. Two scenarios are constructed called Energy Inflation and Paying for Climate Change. These were developed using a triangulation of methods including the use of systems thinking models to construct the scenarios to computable general equilibrium modelling to analyse the impact of oil and energy price rises on Scottish tourism. The Energy Inflation scenario presumes mass belief in the plenitude of available oil reserves and the failure to respond quickly enough to alter demand. This triggers a sudden and prolonged period of economic shocks, political instability and environmental disasters. The Paying for Climate Change scenario assumes rising energy prices, combined with conservation measures such as carbon taxes. Both scenarios raise a number of policy issues for the future including oil and fossil fuels being the main sources of energy as there is no real alternative. Renewables and nuclear power will continue to grow and countries will try to reduce further their reliance on oil. Rising oil prices are also noted as a positive feature, driving innovation and new technologies, which will become more economic as oil prices rise. For Scottish tourism, the impact of rising oil prices could mean a bumpy ride with carbon taxes, more wind farms and the possible end of the low cost carrier.

### Quoygrew Excavations

**Type** Web Page  
**Author** Dr James Barrett

**Author** Patrick Gibbs**URL** <http://www.mcdonald.cam.ac.uk/projects/Quoygrew/index.html>**Rights** © 2006 Viking Age Transitions Project**Date** 2006-08-01

**Extra** Following previous sampling at Quoygrew, Orkney, in 1978, three seasons of excavation opening c.170m<sup>2</sup>, were conducted in 1997, 1999 and 2000. This work has identified a well-preserved Viking Age and medieval rural settlement. It covers an area of over a hectare and includes a coastal fish midden, a 6.5m by c.18m house with undisturbed ash floors, a 'farm mound' of kitchen midden and a plaggen infield. Radiocarbon and artefact evidence suggest that these deposits are broadly contemporary. All but the infield (which may only be associated with a late phase) appear to date between the 10th and 13th centuries. This site provides an opportunity to study economic changes associated with the Viking Age - medieval transition in northern Scotland, particularly a major increase in the intensity of fishing. The excavation project will contribute to management of Orkney's coastal erosion problem and it is hoped that the best preserved features will be consolidated as a heritage resource in collaboration with the Westray Development Trust.

**Accessed** Fri 21 Nov 2008 15:35:05 GMT**Website Type** Text**Date Added** Sat 30 Oct 2010 12:55:36 BST**Modified** Sat 30 Oct 2010 12:55:36 BST**Tags:**

## Scotland and nationalism: Scottish society and politics, 1707 to the present

**Type** Book  
**Author** Christopher Harvie  
**Publisher** Routledge  
**ISBN** 9780415195249  
**Date** 1998  
**Library Catalog** Google Books  
**Language** en  
**Abstract** First published in 1977, Scotland and Nationalism, Christopher Harvie's acclaimed study of Scottish culture and politics since the Union of 1707, has been extensively rewritten to bring the story entirely up-to-date, drawing on the remarkable output of Scottish historians and writers in more recent years. A new chapter discusses the whole of the Referendum and Devolution, and a rewritten last chapter examines topics like the Dunblane massacre, forms of popular culture, and the development of nationalist feeling in a wider cultural context. Beneath the political level, but interacting with it, Harvie sees the evolution of a "civic republicanism" which, unless checked by real measures of federalism, renders the future of the Union unpromising.  
**Short Title** Scotland and nationalism

**Spatial analysis in archaeology: Historical developments and modern applications**

**Type** Web Page  
**Author** Ronald J Rood  
**URL** <http://soar.wichita.edu/dspace/handle/10057/1768>  
**Date** 1982  
**Accessed** Fri 02 Mar 2012 09:55:33 GMT  
**Website Type** Article  
**Language** English (United States)  
**Abstract** Author presents a critical survey of the development and present state of spatial analyses in archaeology. He traces the root of spatial analysis to Tonnie's distinction between naturally defined spatial relationships and socially defined spatial conventions. He discusses its subsequent development through the Austro-German anthropogeographers, and its fissioning into a variety of spatial theories adapted two different social sciences. He provides an excellent tour d'horizon of these different theories and their archaeological applications, as well as attempting to define the directions in which these theories are likely to develop. Perhaps the most significant direction is toward a 'structural archaeology,' where the physical expressions of a culture may be viewed as elements in a system amenable to structural analysis.

## The empire writes back: theory and practice in post-colonial literatures

**Type** Book  
**Author** Bill Ashcroft  
**Author** Gareth Griffiths  
**Author** Helen Tiffin  
**Publisher** Psychology Press  
**ISBN** 9780415280204  
**Date** 2002-10-25  
**Library Catalog** Google Books  
**Language** en  
**Abstract** The experience of colonization and the challenges of a post-colonial world have produced an explosion of new writing in English. This diverse and powerful body of literature has established a specific practice of post-colonial writing in cultures as various as India, Australia, the West Indies and Canada, and has challenged both the traditional canon and dominant ideas of literature and culture. The Empire Writes Back was the first major theoretical account of a wide range of post-colonial texts and their relation to the larger issues of post-colonial culture, and remains one of the most significant works published in this field. The authors, three leading figures in post-colonial studies, open up debates about the interrelationships of post-colonial literatures, investigate the powerful forces acting on language in the post-colonial text, and show how these texts constitute a radical critique of Eurocentric notions of literature and language. This book is brilliant not only for its incisive analysis, but for its accessibility for readers new to the field. Now with an additional chapter and an updated bibliography, The Empire Writes Back is essential for contemporary post-colonial studies.

**Abstract** Critiques of anthropology from within the discipline and from without have been a major feature of our intellectual life since the late 1960s. The theoretical and empirical bases of cultural and social anthropology have been under attack since the Marxist and New Left critiques of the 1960s to those coming more recently from poststructuralism, postmodernist and literary theory, and postcolonial and cultural studies. As a result, several academic generations have been educated by reading the attacks on the field but rarely dealing with the actual theoretical works and ethnographies of earlier anthropologists. This article deals with several of the most common charges leveled at anthropology, notably that it has regularly and necessarily exoticized "Others," has been ahistorical, and has treated each culture as if it were an isolate, unconnected to any other. It demonstrates how inaccurate and easily falsifiable such claims are and recommends a critical reevaluation of these unexamined and destructive clichés.

## The social logic of space

**Type** Book  
**Author** Bill Hillier  
**Author** Julienne Hanson  
**Publisher** Cambridge University Press

**ISBN** 9780521233651  
**Date** 1984-06-07  
**Library Catalog** Google Books  
**Language** en  
**Abstract** The book presents a new theory of space: how and why it is a vital component of how societies work. The theory is developed on the basis of a new way of describing and analysing the kinds of spatial patterns produced by buildings and towns. The methods are explained so that anyone interested in how towns or buildings are structured and how they work can make use of them. The book also presents a new theory of societies and spatial systems, and what it is about different types of society that leads them to adopt fundamentally different spatial forms. From this general theory, the outline of a 'pathology of modern urbanism' in today's social context is developed.

**Accessed** Sun 05 Feb 2012 09:19:21 GMT  
**Library Catalog** JSTOR  
**Abstract** L'aristocrazia romana della Tarda Repubblica e del Primo Impero costruiva e decorava le proprie case in modo così dispendioso non solo per esibire la propria ricchezza con un consumismo così cospicuo ma piuttosto per ottenere un ambiente idoneo a dei precisi modi di vita. Forme e decorazioni architettoniche possono essere interpretate come linguaggio di comunicazione sociale. Le strutture essenziali della casa romana, come attestano quelle che restano nell'area

vesuviana, riflettono distinzioni di rango sociale piuttosto che di sesso ed età come invece accade in una abitazione familiare moderna. Come nella casa formale dell'Europa della prima era moderna la preoccupazione maggiore era quella di stabilire precedenze di privilegi e intimità. A questo scopo sia la forma che la decorazione architettonica, in particolare quella parietale dei IV Stili Pompeiani attingono al linguaggio dell'architettura pubblica per accentuare il senso dello spazio privato usando riferimenti idiomati di quello pubblico. Vista in questa luce, l'architettura domestica romana diventa un prezioso documento di storia sociale per capire più profondamente il quale sarà necessario rivalutare questo materiale liberandoci di alcuni pregiudizi tradizionali.

## The Theology of John Calvin

**Type** Book  
**Author** Charles Partee  
**Publisher** Westminster John Knox Press  
**ISBN** 9780664231194  
**Date** 2008-10-31  
**Library Catalog** Google Books  
**Language** en

**Abstract** The theology of John Calvin was given classic expression in his Institutes of the Christian Religion. In this definitive work, Calvin expert Charles Partee offers a careful exposition of Calvin's theology as it appears in the Institutes, paying special attention to the relation of Calvin's theology to the history of Christian thought and to the questions of Calvin's own time. Partee also examines the development of later Calvinism and the adaptation of Calvin's thought by his later followers. As Partee shows, Calvin's theology provides a profound exposition of Christian faith and a magnificent resource for theology today.

## The Way of Poetry

**Type** Book  
**Author** John Drinkwater  
**Publisher** Collins  
**ISBN** 9781110632497  
**Date** 1919

**Library Catalog** Google Books

**Language** en

**Abstract** This is a pre-1923 historical reproduction that was curated for quality. Quality assurance was conducted on each of these books in an attempt to remove books with imperfections introduced by the digitization process. Though we have made best efforts - the books may have occasional errors that do not impede the reading experience. We believe this work is culturally important and have elected to bring the book back into print as part of our continuing commitment to the preservation of printed works worldwide.

**Rights** Copyright © 1998 Annual Reviews  
**Volume** 27  
**Pages** 105-128  
**Publication** Annual Review of Anthropology  
**ISSN** 0084-6570  
**Date** January 1, 1998  
**Extra** ArticleType: research-article / Full publication date: 1998 / Copyright © 1998 Annual Reviews  
**Journal Abbr** Annual Review of Anthropology  
**DOI** 10.2307/223365  
**Accessed** Tue 09 Apr 2013 14:45:30 BST  
**Library Catalog** JSTOR  
**Abstract** For a long time anthropology was defined by the exoticism of its subject matter and by the distance, conceived as both cultural and geographic, that separated the researcher from the researched group. This situation has changed. In a few years we may assess the twentieth century as characterized by a long and complex movement, with theoretical and political implications, that replaced the ideal of the radical encounter with alterity with research at home. But "home" will, as always, incorporate many meanings, and anthropology will maintain, in its paradigmatic assumption, a socio-genetic aim toward an appreciation for, and an understanding of, difference. In some cases, difference will be the route to theoretical universalism via comparison; in others, it will surface as a denunciation of exoticism or a denial of its appeal. This review examines different moments and contexts in which an attempt at developing anthropology "at home" became an appropriate quest.
